

Key Business Insights & Strategic Recommendations

Sales • Profitability • Customers • Discounts • Geography

Segment

All

Insight 1: **Profitability remains stable nationwide.** Profit Margin consistently stays around **25-26%** across all segments and regions, indicating strong cost control and a well-balanced pricing strategy.

Insight 2:**Discounts are moderate and do not erode margins.** The average discount is approximately **11%** in the Technology category and similar across other segments, showing that discount policies are healthy and do not negatively impact profitability.

Insight 3:**The Corporate segment delivers the strongest margin.** Corporate customers achieve a Profit Margin of **25.45%**, outperforming the overall average and confirming a stable, predictable, and profitable customer base.

Insight 4:**Strong geographic performance in the South and West regions.** The **South** and **West** regions generate the highest sales, with Tennessee, Oregon, and Arizona ranking among the top-performing states. These areas act as the primary growth drivers.

Insight 5:**Premium products generate the highest profit contribution** The top 5 products by profit consistently come from the Technology and Office Supplies categories, confirming that premium products deliver the strongest profitability.
